**U.S. Preventive Medicine Recognized as Health Innovator  
in Testimony to U.S. Senate Subcommittee**

***Galen Institute Testimony Highlighted Health Care Innovations  
Enabling Quality Care at Affordable Prices***

DALLAS, TX and JACKSONVILLE, FL (July 27, 2009) — U.S. Preventive Medicine®, the leader in preventive medicine, has been recognized as a health care innovator in testimony before the U.S. Senate Committee on Commerce, Science, and Transportation by the president of Galen Institute.

In her testimony before the Consumer Protection, Product Safety, and Insurance Subcommittee, Grace-Marie Turner highlighted innovations in care delivery, benefit offerings and treatment as solutions to achieve quality care at more affordable prices.

“Many companies are offering turnkey solutions to health plans and employers. U.S. Preventive Medicine, for example, offers employers packages of services they can tailor to fit the needs of their workforces for preventive care services,” Turner said in her testimony.

The Galen Institute is a non-profit research organization devoted to advancing an informed debate over market-based health reform ideas.

**About U.S. Preventive Medicine®**

U.S. Preventive Medicine®, a privately-owned global prevention services company with clients nationwide and the United Kingdom, provides primary, secondary and tertiary clinical prevention services to government, employers and consumers that are data-driven and outcomes-oriented.
